

Department Of Chemistry

GDC Ganderbal

GDC/GBL//CHM/20/___Exam--03___

Dated:-02/10/2020

Practical Paper

Max. Marks 30

B.G. 2nd semester

Attempt all questions (Each question carries 10 Marks)

Q.no.1:- Write down the theory, procedure and hypothetical calculations for the determination of enthalpy of neutralization of hydrochloric acid with sodium hydroxide?

Q.no.2:- Write down procedure, structure and chemicals required for the purification of benzoic acid by the process of crystallization?

Q.no.3:- Write down the Principle, procedure and hypothetical calculations for the determination of enthalpy of hydration of copper sulphate?
